

KWeb Login

When accessing documents or pages in *my Tri-C space*, you may be prompted to login to [KWeb](#). (KWeb is the College Intranet site).

When prompted for a username and password, you will use the following:

Type in `ccc_network\` before typing your username, which is the login name based on your first initial and first six characters of your last name (the same one you use to log into your Tri-C computer)

Example: `ccc_network\xanders`

Password: your network password (this is the password that you use when logging into your Tri-C computer)

NOTE: Your **S#** is **never** used to login to KWeb. Always use your Network ID and password (this is the same one you use to log into your Tri-C computer).
